Dear Jack & Esther:

This letter serves 2 purposes - first, to ask if there would be any possibility of changing your visit here until Summer? It looks like Feb-April will involve more trips for me than I'd anticipated! You will shortly receive an invitation to a conference in genetics etc. of viruses, NFIP sponsored, in N.Y. on Feb 20, 21. With that, and other meetings, it looks like I'll be away Feb 19 to 29, March 14 to 26 or 28, and April 7 to 13, or if I go to Fed. meetings, now questionable, from Apr 7 to 18 or 19. In contrast to this May is free, so far, but last 2 weeks of June probably are not. However, the Summer is completely free, and likely to remain so.

How is your lab coming, and is there any chance of this Summer working out? I suppose your WAF grant could be postponed until Fall Summer, or is not your?

Second purpose, to wish  
you and Esther a Merry Xmas,  
and a most happy and prosperous  
New Year!

Yours

Ed
